

## About Us

ScaVet Technologies LLC (SVT) was established in 2006 as a Certified SDVOSB. SVT provides test and evaluation, product innovation, research & development, finite analytical studies, blast mitigation, field-testing, and system development. SVT's experience spans a wide range of business consulting, engineering, testing, training, and security services for Department of Homeland Security (DHS), Transportation Security Administration (TSA), Federal Aviation Administration (FAA), Department of Defense (DoD), Department of State (DoS), Army Corps of Engineers, SRA International, Enroute Computer Solutions, McKean Defense, Applied Research and Associates (ARA), Battelle, and private industry.

SVT's experience extends through Systems, Electrical, Mechanical, Chemical, and Civil engineering. SVT provides professional test and evaluation, installation and integration, verification and validation, systems design, software/system development, configuration management, complete life cycle testing, secure IT, and system deployment for Explosive Detection Systems and Air Traffic Control systems.
